Bernard J. Daney, Chairman of the Delaware Thoroughbred Racing Commission (DTRC) and President of the Therapeutic Riding at Carousel (TRAC) accepted a gift of \$1,250.00 from the Delaware Thoroughbred Horsemen's Association (DTHA) to be used towards scholarships for program participants. TRAC is a non-profit organization set up to work with disabled persons offering exercise of the mind and body with the use of program horses. The board at TRAC has been working with several families in issuing scholarships for sessions. The program is headquartered at Carousel Park in New Castle County and has been existence for several years.

The Therapeutic Riding at Carousel program began in 2006 and has grown significantly in the ensuing years. Children and adults with physical disabilities including cerebral palsy and neurological disorders, including autism, benefit from the program initiated by New Castle County Councilman Joe Reda.
